

Character

Event

State

Edge

- * During your Main Shot, you may play any type of card. You may play only one Site of any kind per turn, but there are no limits on other card types.
- * During an attack during your Main Shot, you may play only Events and States.
- * During opponents' Main Shots, you may play only Events.

Feng Shui Site

non-Feng Shui Site

- * Play Sites into your site structure (up to two Sites in each column; any number of columns).
- * Play Characters in front of a front-row Site you control.
- * Play States on a card in play.
- * Play Edges to one side of your site structure.
- * Play Events directly into your smoked pile.

Feng Shui Sites and non-Feng Shui Sites are really the same type of card, but the shape of the art box is a little different anyway to help you tell them apart as you glance across the table.
